It looks great from any angle. Note the spacious aft bench, integrated transom swim steps and built-in storage locker.

	22 SPORT CAT
Hull Length	22' 0"
Beam	99"
Approx. Weight w/Engine	2800
Standard Fuel Capacity	72 gal
Seating Capacity	6
Transom Angle	17°
Hull Deadrise	12°

Advantage quality and gelcoat graphics are flawless. The 22 Sport Cat delivers exceptional performance, stability and ride comfort plus a generously sized passenger cockpit.

Advantage recommends the complete line of dependable MerCruiser sterndrive power options including Mercury Hi-Performance engines and packages.

A low center of gravity and a highly refined multi-step air entrapment hull configuration produce exceptional performance with single or twin engine installations.

The driver's helm is all business...positioned correctly, easy to view instrumentation, in-dash stereo compartment, ergonomically designed throttle/shift control placement and oversized entryway access to cabin and bow.

The 28 Sport Cat proves you can have performance, comfort and convenience. Note the built-in gunnel compartment for an optional electric blender.

High performance air entrapment hulls have long been a tradition and a passion at Advantage Boats. And their success didn't come easy. To properly design and build a high performance boat takes knowledge, experience and a willingness to endure rigorous testing and development. At Advantage, we've paid our dues. Our Sport Cat models are the result of years of refinement and perfection. Like most things, the very best is always worth waiting for.
